

Institutional Distinctiveness (2019-20)

DUOLOGUE

D J Academy for Managerial Excellence, in relentless pursuit of excellence initiated its flagship Program, “**DUOLOGUE**”. Duologue – A dialogue with the corporate leaders was launched with the objective of featuring a veritable who’s who of the industry. The format of this program is interaction or interviewing as it is a dialogue. A DJAME faculty member with expertise and interest in the industry to which the eminent leader to be interviewed belongs to will hold a colloquy.

In the process of preparation for the Duologue, faculty get to read and understand the personality, journey and achievements of the chief guest. This initiative offers a wonderful opportunity to faculty members to network and interact with the leaders.

Duologue brings out the stories of the leaders and changemakers, giving a glimpse of their childhood, education, aspiration, their contribution to the industry to which they belong to. They also share their experiences and journey to success.

At present the program happens virtually and is attended by students and corporate professionals from different parts of the country and world. The institute offers a unique occasion to the student community to listen to the stories of outstanding and distinguished leaders of the industry. The crucial part of the program is the Q and A session where the students and other attendees get opportunity to ask questions which happens towards the end of the session. This helps them learn better, enhances the quality of their thinking and promotes personal confidence.

The institution had organised two such programs in 2020

- 1) **Duologue with Dr T Natarajan, IAS** – Senior Advisor to Executive Director of India, International Monetary Fund (IMF), Washington DC, interviewed by Dr. Deepa Venugopal, Associate Professor, DJAME.
